

What is Parkside aiming to achieve through its Health and Social Care curriculum?

We want to learners to develop knowledge and understanding by applying their learning and skills in a work-related context. Additionally, they are popular and effective because they engage learners to take responsibility for their own learning and to develop skills that are essential for the modern-day workplace. These skills include: team working; working from a prescribed brief; working to deadlines; presenting information effectively; and accurately completing administrative tasks and processes. Health and Social Care aims to motivate learners, and open doors to progression into further study and responsibility within the workplace.

Parkside School Subject Curriculum Plan

Subject: Health and Social Care – KS5

Year	Half Term 1	Half Term 2	Half Term 3	Half Term 4	Half Term 5	Half Term 6
